

## BERFAT UNN

UNIVERSAL FATLIQUOR FOR LEATHER

### CHEMICAL COMPOSITION

Fatliquor based on selected oils and sulphites

#### CHARACTERISTICS

<i>Appearance:</i>	<i>reddish oily</i>
<i>pH in solution at 10%:</i>	<i>7 – 8</i>
<i>Fat substances:</i>	<i>55 - 60%</i>

### PROPERTIES

**BERFAT UNN** is a fatliquor formulated to obtain an ideal balance between penetration and fiber filling.

If used alone as a unique fatliquor in the formulation, it gives soft, full and silky touch to the leather.

**BERFAT UNN** can be blended with other oils, specially if difficult in penetration due their greasy and milky emulsions.

The extremely high power of penetration of **BERFAT UNN** carries there emulsions and contributes deep penetration.

### USAGE METHOD

If used alone, 10-19% is recommended, from 3 to 5% if blended with other oils to give roundness and softness to the leather.
