

DIMITROL SAB

AUXILIARY FOR LIMING

CHARACTERISTICS

<i>Appearance:</i>	<i>white gritty powder</i>
<i>pH in solution at 10%:</i>	<i>7,5 – 8,5</i>
<i>Active substance:</i>	<i>about 100%</i>

PROPERTIES

DIMITROL SAB is used in liming together with lime rates, lowering at the same time the percentages of sodium sulphide and anti-wrinkler.

DIMITROL SAB gives the treated hides greater wrinkle opening and closure of the vein and also a better grain cleaning.

By using **DIMITROL SAB** in rapid liming, better penetration of the lime is obtained, and a good standardization of the liming also in the most critical point.

USAGE METHOD

From 1 to 1,5% is used in rapid liming.

From 0,8 to 1% in 24 hour liming together with added lime.
