

SCIVOLANTE AD

LIQUID SLIDING FOR LEATHER

CHARACTERISTICS

<i>Appearance:</i>	<i>Colourless viscous liquid</i>
<i>pH in solution at 10%:</i>	<i>6,5 – 7,5</i>

PROPERTIES

SCIVOLANTE AD has been formulated upon specific request in order to obtain a good slipping effect, keeping product price low.

SCIVOLANTE AD, added in drum during leather processing, increases the liquids viscosity, reducing friction and rubbing due to the mechanical action.
